Joe Rocco, M.D.

Dr. Joseph “Joe” Rocco is an Associate Clinical Investigator and Chief of the HLH and Hyperinflammatory Syndromes Unit at the National Institute of Allergy and Infectious Diseases. He leads a clinical and translational research program focused on understanding the pathogenesis of hemophagocytic lymphohistiocytosis (HLH) in adults. His work seeks to identify novel mechanisms underlying HLH and translate discoveries from the laboratory to the bedside, with the ultimate goal of

improving outcomes for individuals living with HLH.
